

## GRAND VALLEY RECREATION CENTER

The Grand Valley Recreation Center is always looking for great partners that want to support our community through youth sports, events and activities. We are a community recreation center that supports our community with 7,000 residents and 2000+ members. We provide recreational and educational opportunities for youth, adults, and seniors who are looking for ways to get out and about in our community. We are a 53,000 sq ft center opened in 1982 for Exxon employees and management. We have now become a Special District here in Colorado supporting our 7,000 residents with parks, golf, and a recreation center.

We are continuously looking for support at all levels to create an environment that every resident looks to for recreation opportunities. With specific funding for certain sports, events or activities we can use those resources to promote our programs, purchase supplies for our programs and refurbish our center. Youth in our community need opportunities for growth, camaraderie and exercise. We want you and our community to feel as though they have a stake in what we are doing and how well we do it. It is with your support that we can achieve this.

Thank you for your interest and support!

Sincerely,

Steve Matzl - Director, Grand Valley Recreation Center

# 18 Hole Frisbee Golf Course

## Sponsorship

The Grand Valley Recreation Center is located at 398 Arroyo Dr. in Battlement Mesa, Colorado. We have a beautiful 25 acre property that our facility sits on that is a nice blend of open space, wooded ravines and sagebrush fields. It is in our unused natural space and some open space that we would like to add an 18 hole frisbee golf course.

Our vision for this frisbee golf course is to provide a free recreational opportunity for our community. We will have frisbee golf discs available for rent or purchase from the front desk of our facility during business hours. This frisbee golf course will be open when the recreation center is not open for business but the purchase or rental of equipment will not be available.

We are looking for community support through hole sponsorships to help us build and maintain this frisbee golf facility. Your sponsorship will help us build 12' x 5' concrete tee boxes, signage at each tee box that will have a map of the hole and the hole sponsor's logo or name as a show of support. This can also include a QR code if you would like to help drive traffic to your website or phone number. Each frisbee golf goal will also include your business name and logos around the top ring of the goal. We will also have a sponsor sign on next to the rule sign at Hole #1.

We are asking for a \$1000 donation to help us build this course and a \$250 annual donation for year 2 and beyond to continue to help us keep our course in the best condition possible for our community and for users from anywhere in the valley. Please feel free to contact me with any questions or concerns.
